Barcode width	95 mm x 5 mm : Barcode length 70 ~ 200 mm
Barcode height	Barcode height 30 mm. Barcode type is 1D Barcode (ASCII).
Barcode content	Barcode content is "1234". Barcode length is 6 mm. Barcode type is 1D Barcode.

Barcode types:

Barcode types:

Barcode is a type of data that is represented by a series of vertical lines of varying widths. The barcode is used to identify the product and its price. The barcode is used in many different industries, such as retail, transportation, and logistics. The barcode is used to identify the product and its price. The barcode is used in many different industries, such as retail, transportation, and logistics. The barcode is used to identify the product and its price. The barcode is used in many different industries, such as retail, transportation, and logistics.
