Figure 5: USB + USB + LAN + LAN + LAN. The figure shows a network topology with five nodes. The nodes are arranged in a line, with the first node on the left and the last node on the right. The first node is connected to the second node via a USB connection. The second node is connected to the third node via a USB connection. The third node is connected to the fourth node via a LAN connection. The fourth node is connected to the fifth node via a LAN connection. The fifth node is connected to the first node via a LAN connection.
