POS-T45

POS-T45 is a compact, rugged, and reliable POS terminal designed for high-volume retail environments. It features a high-resolution LCD display, a multi-touch capacitive touch screen, and a built-in thermal receipt printer. The device is powered by a high-performance processor and includes a variety of connectivity options, including Wi-Fi, Bluetooth, and USB. It is also equipped with a secure payment system and a durable, IP65-rated enclosure for long-term use in demanding settings.
