

Printer Driver Installation Manual For Win8 64bit OS

Press WIN+C, choose "Setting"

Click "Change PC Settings"

Click “General”, find “Advanced Setup”, and click “Restart now”

Click “Troubleshoot”

Choose "Advanced options"

Click "Startup settings"

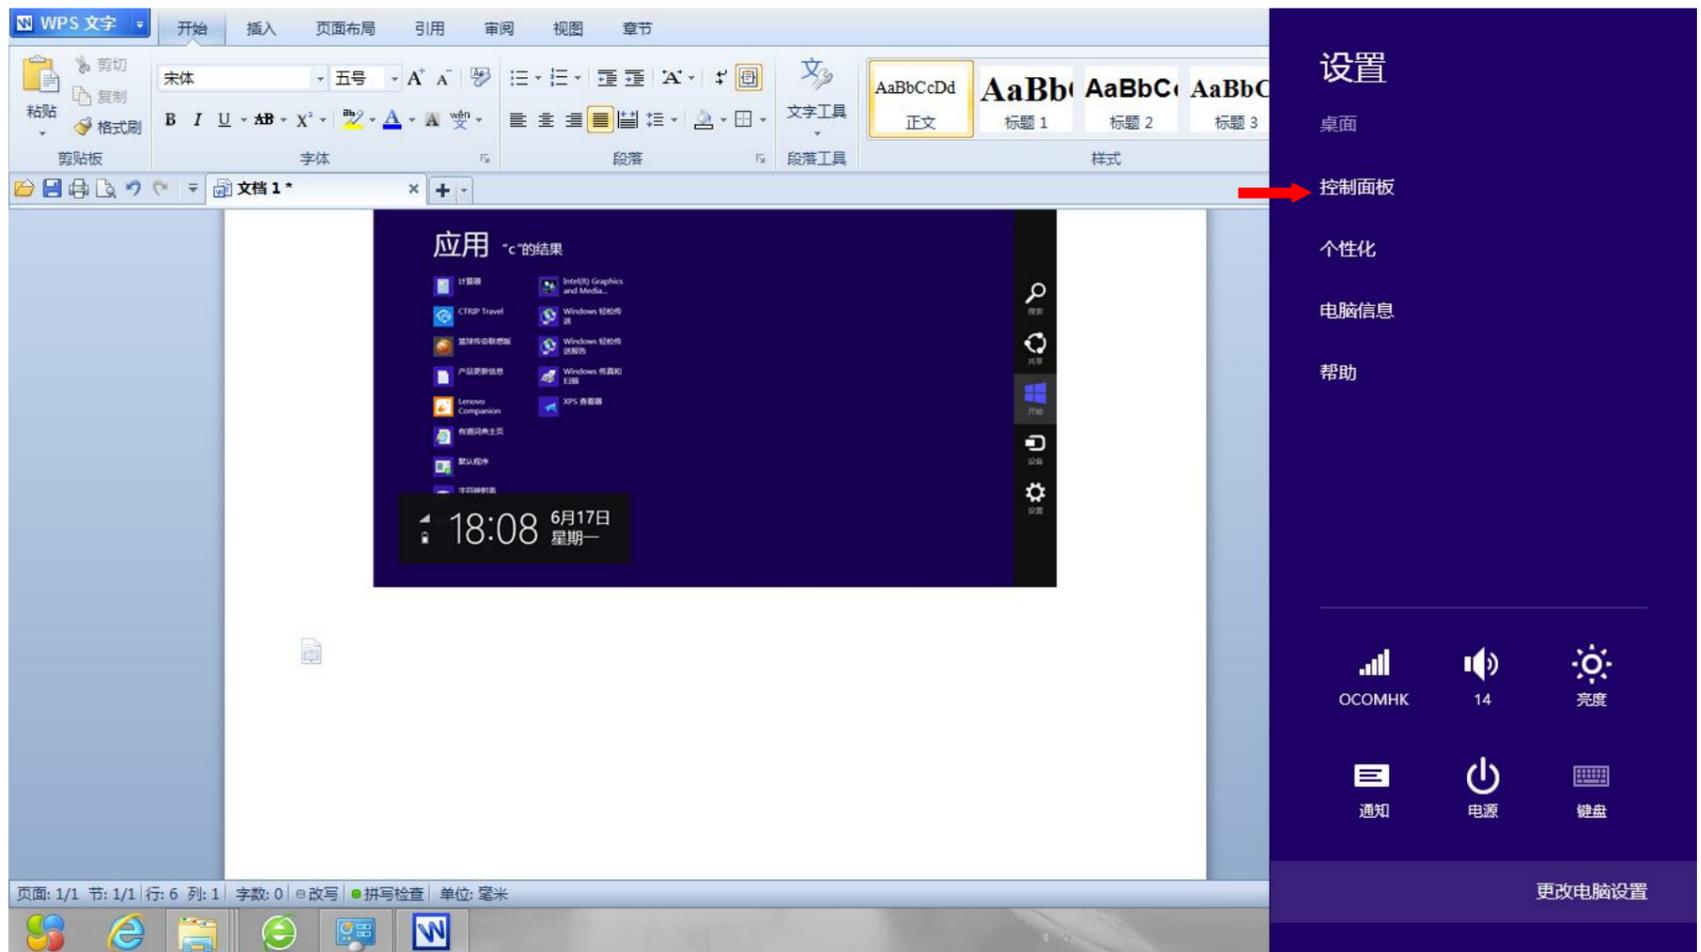

Click "Restart"

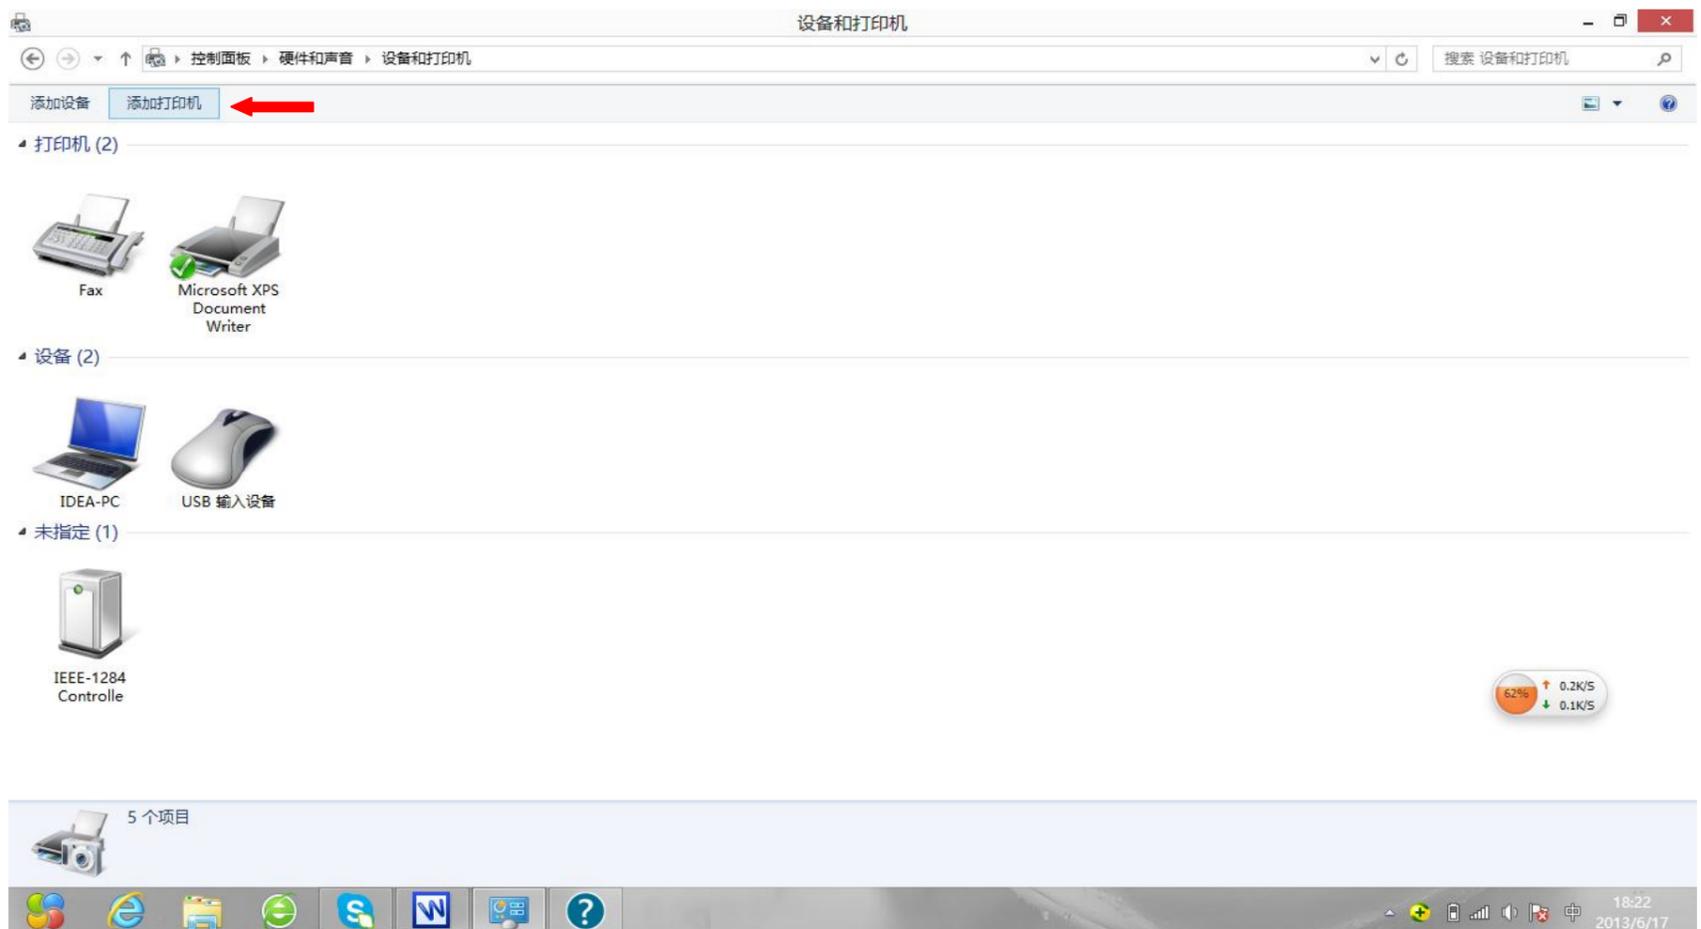

Choose "7. Disable driver signature enforcement", then PC restarts, click "WIN+C", choose "Settings"

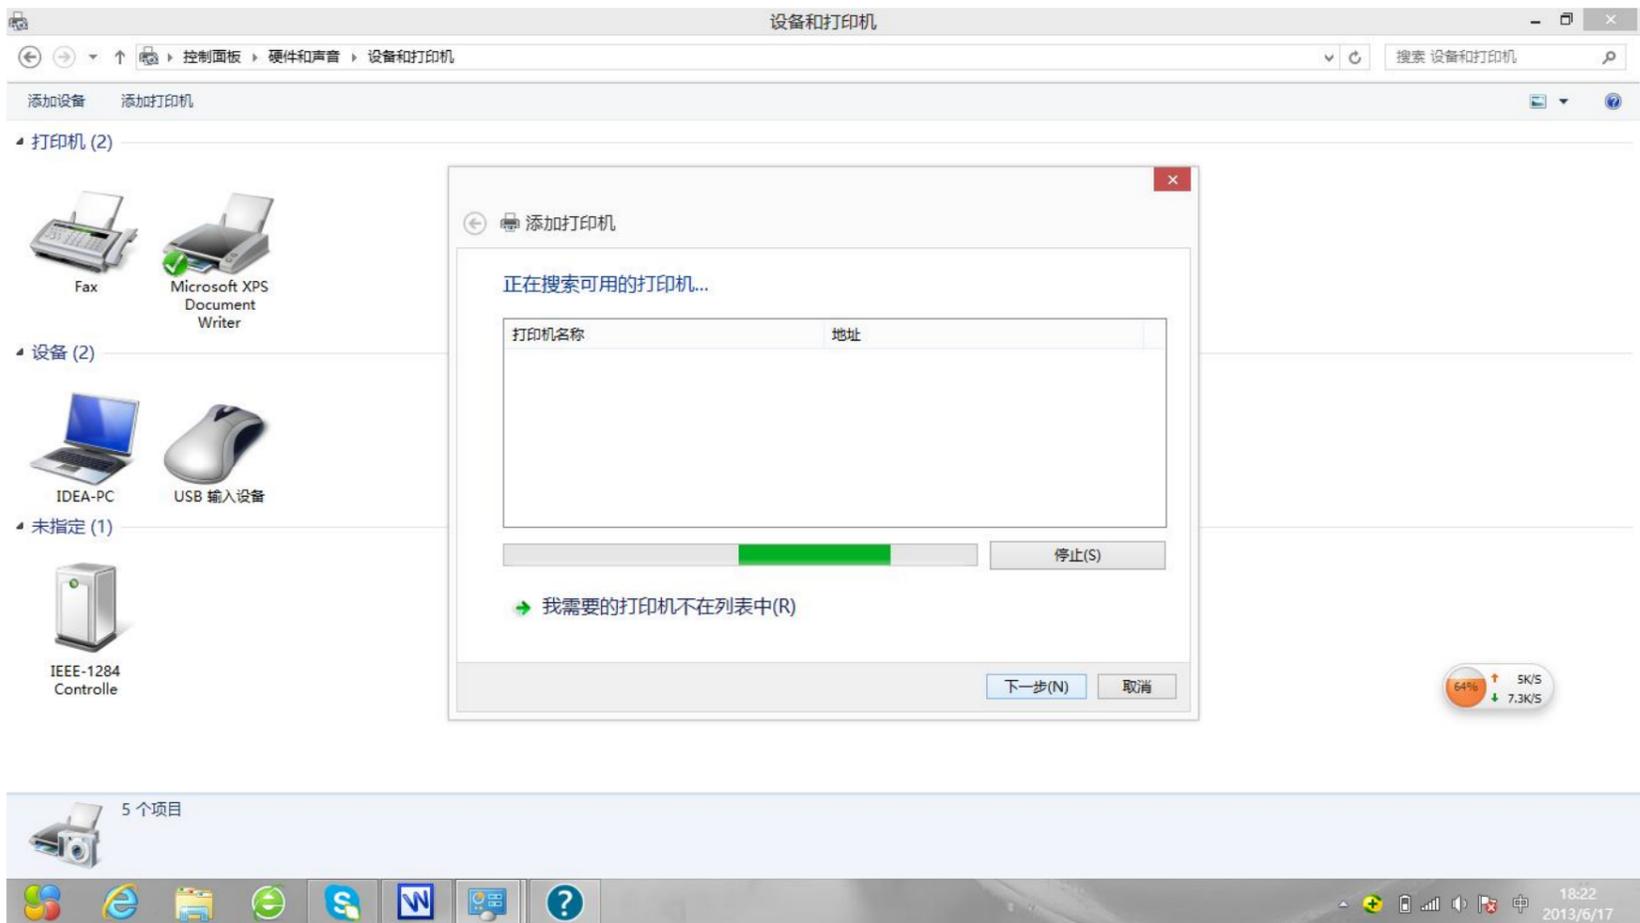

Choose “Control Panel”

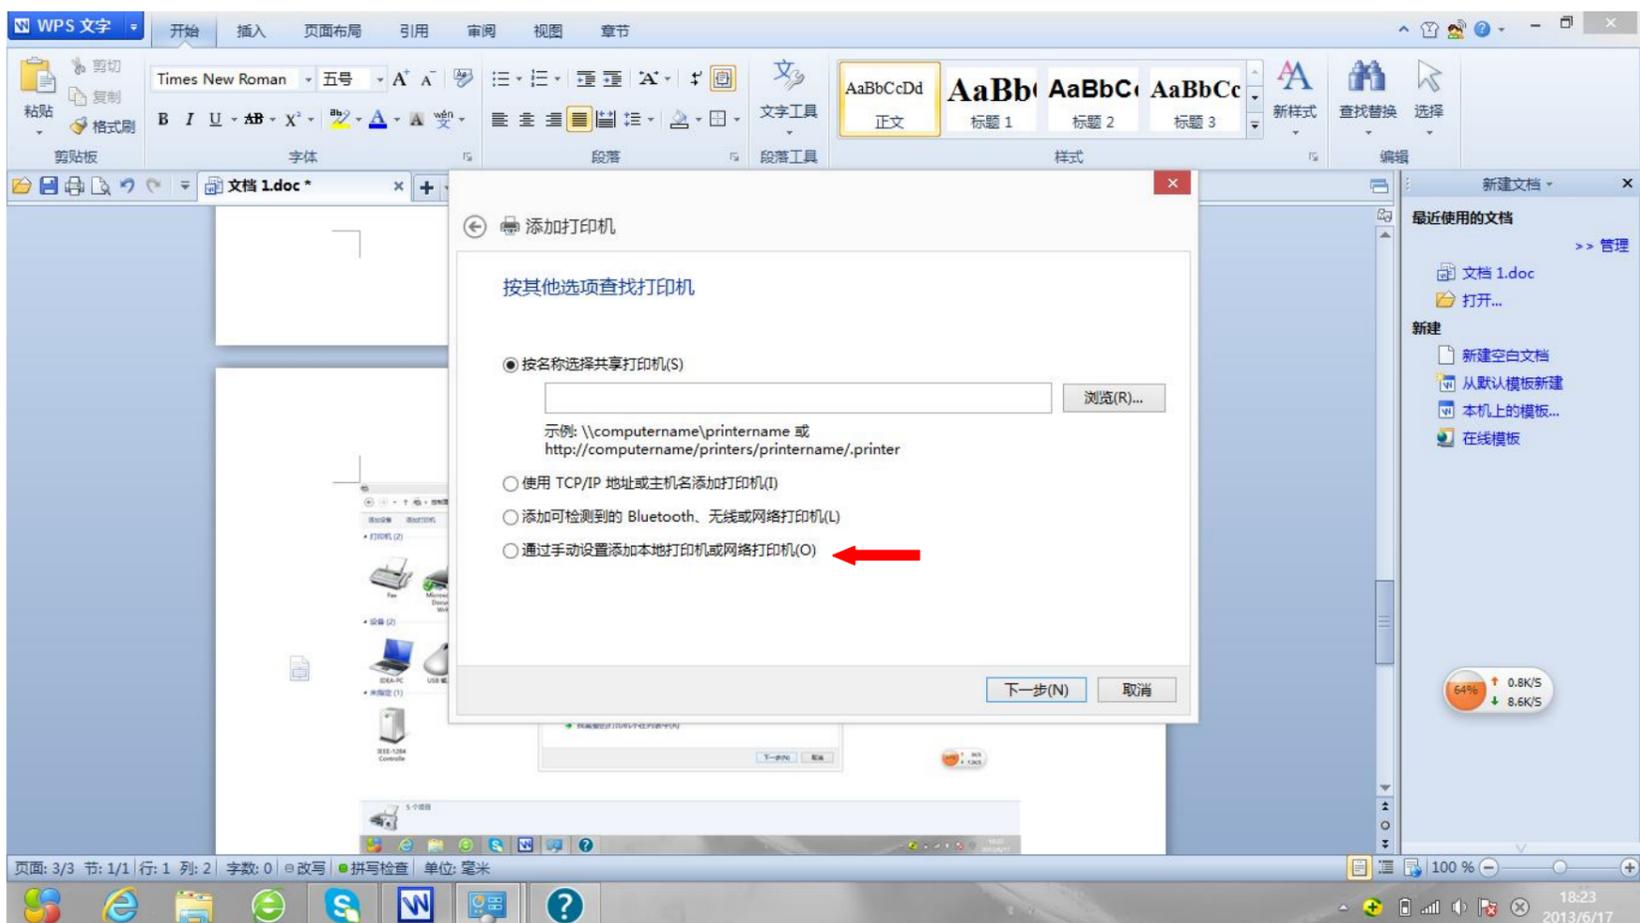

Click “Devices and printers”, Click “Add a printer”

Click “Next” directly.

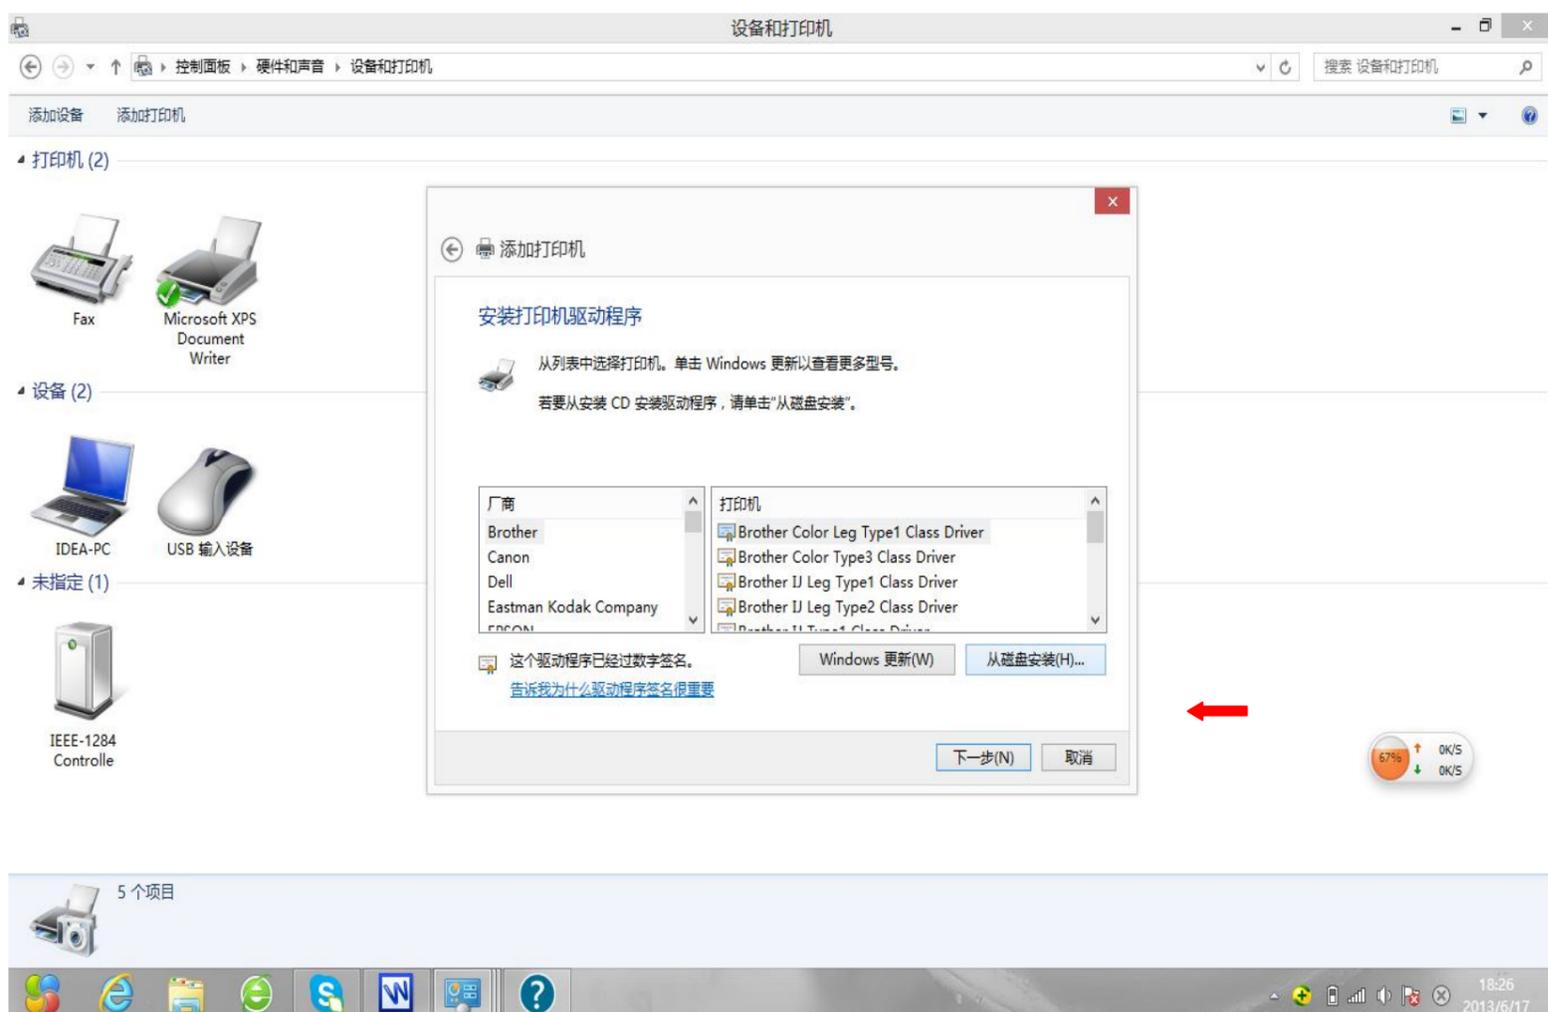

Choose “Add a local printer or network printer with manual settings”

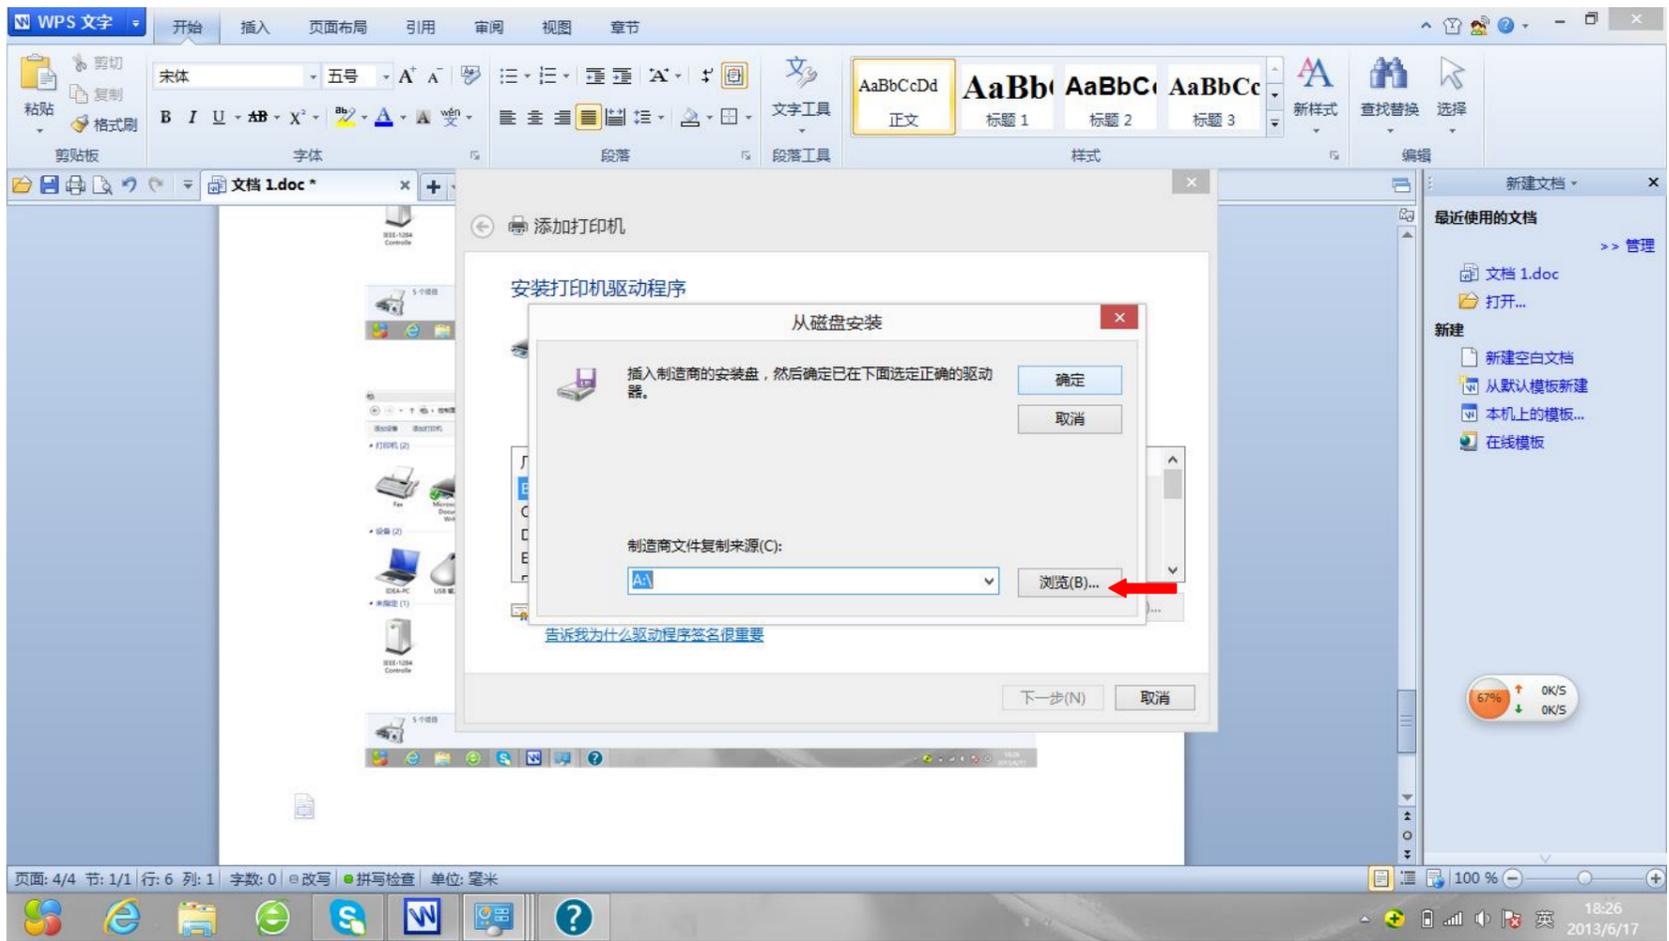

Choose "Next"

Choose "Have Disk"

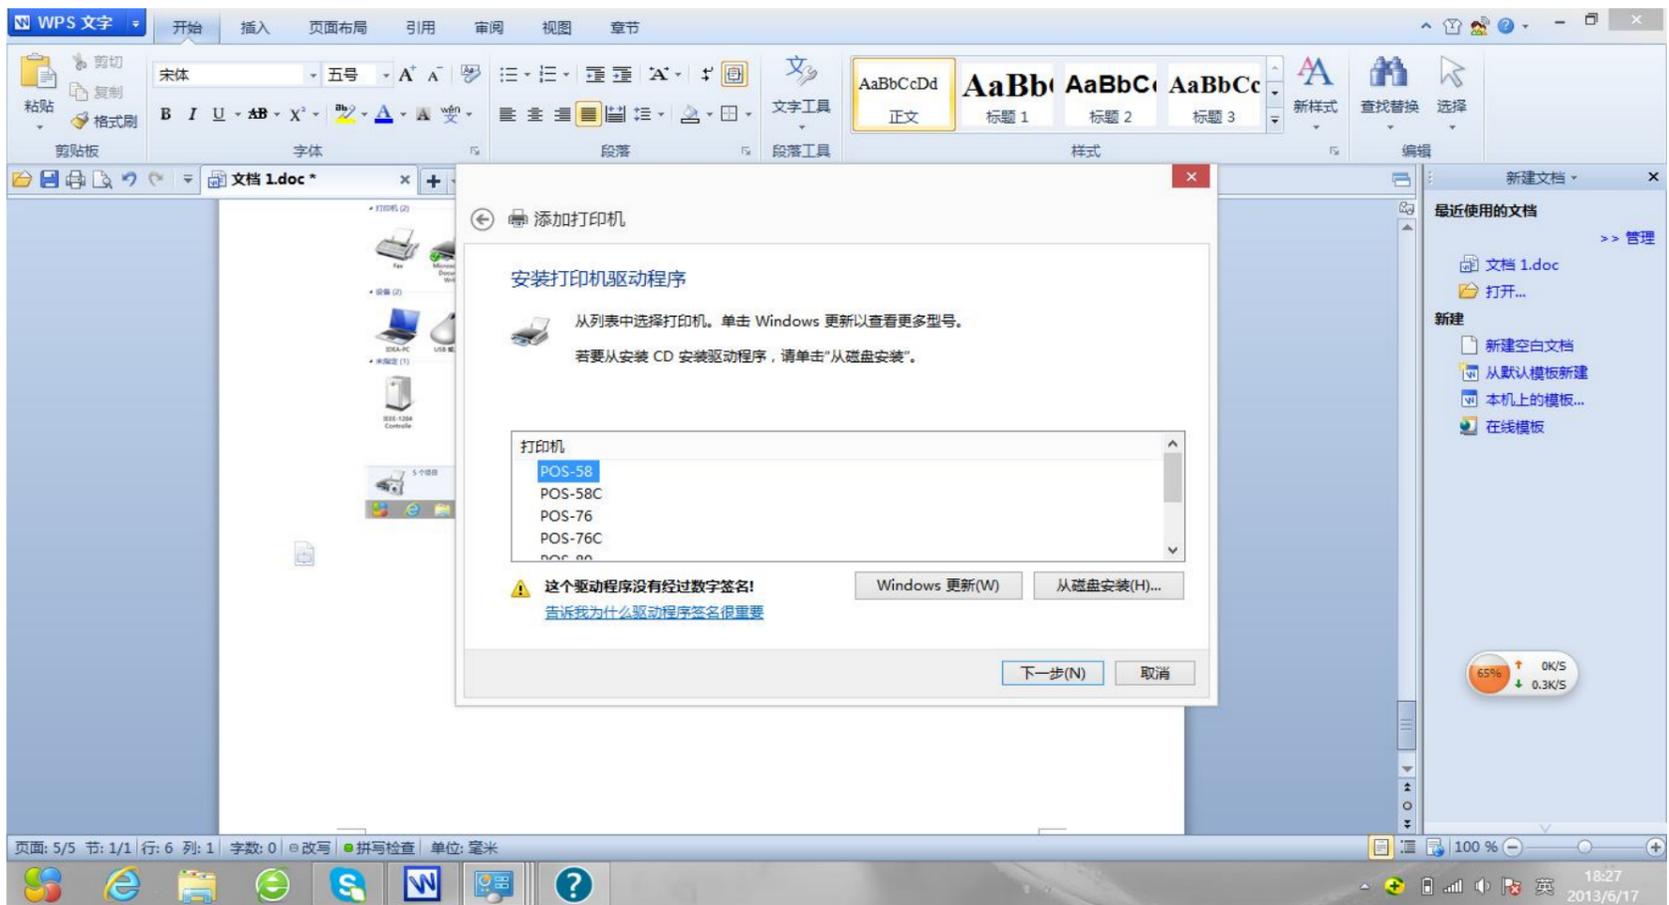

Browse it, and find file “POSDRVx64”.

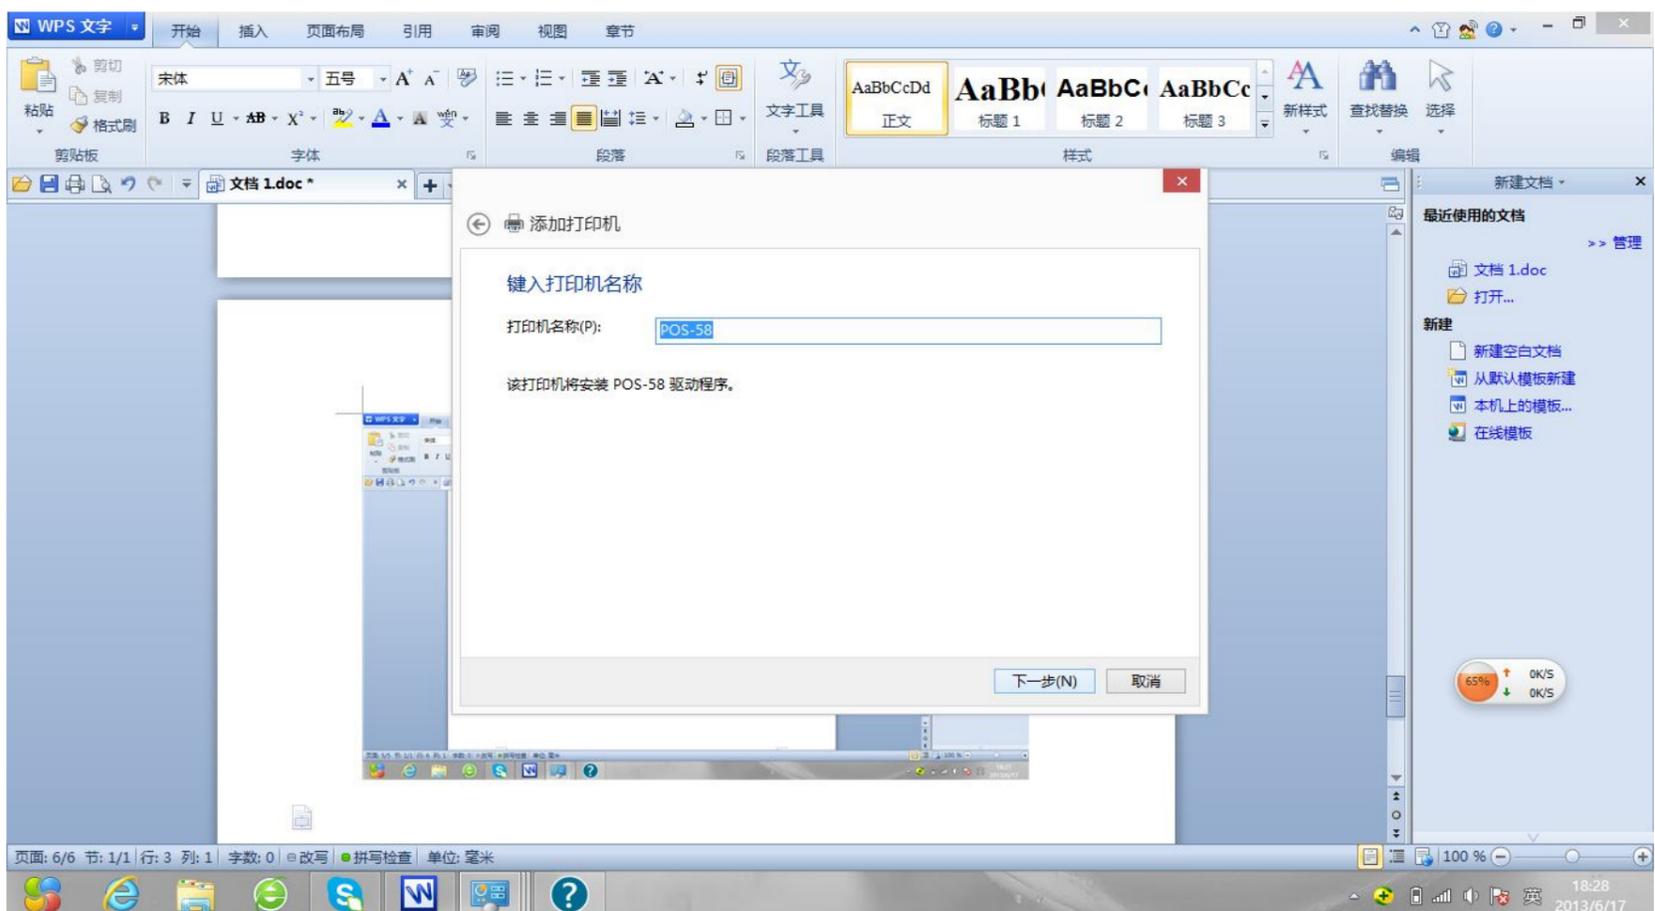

Click “Open”

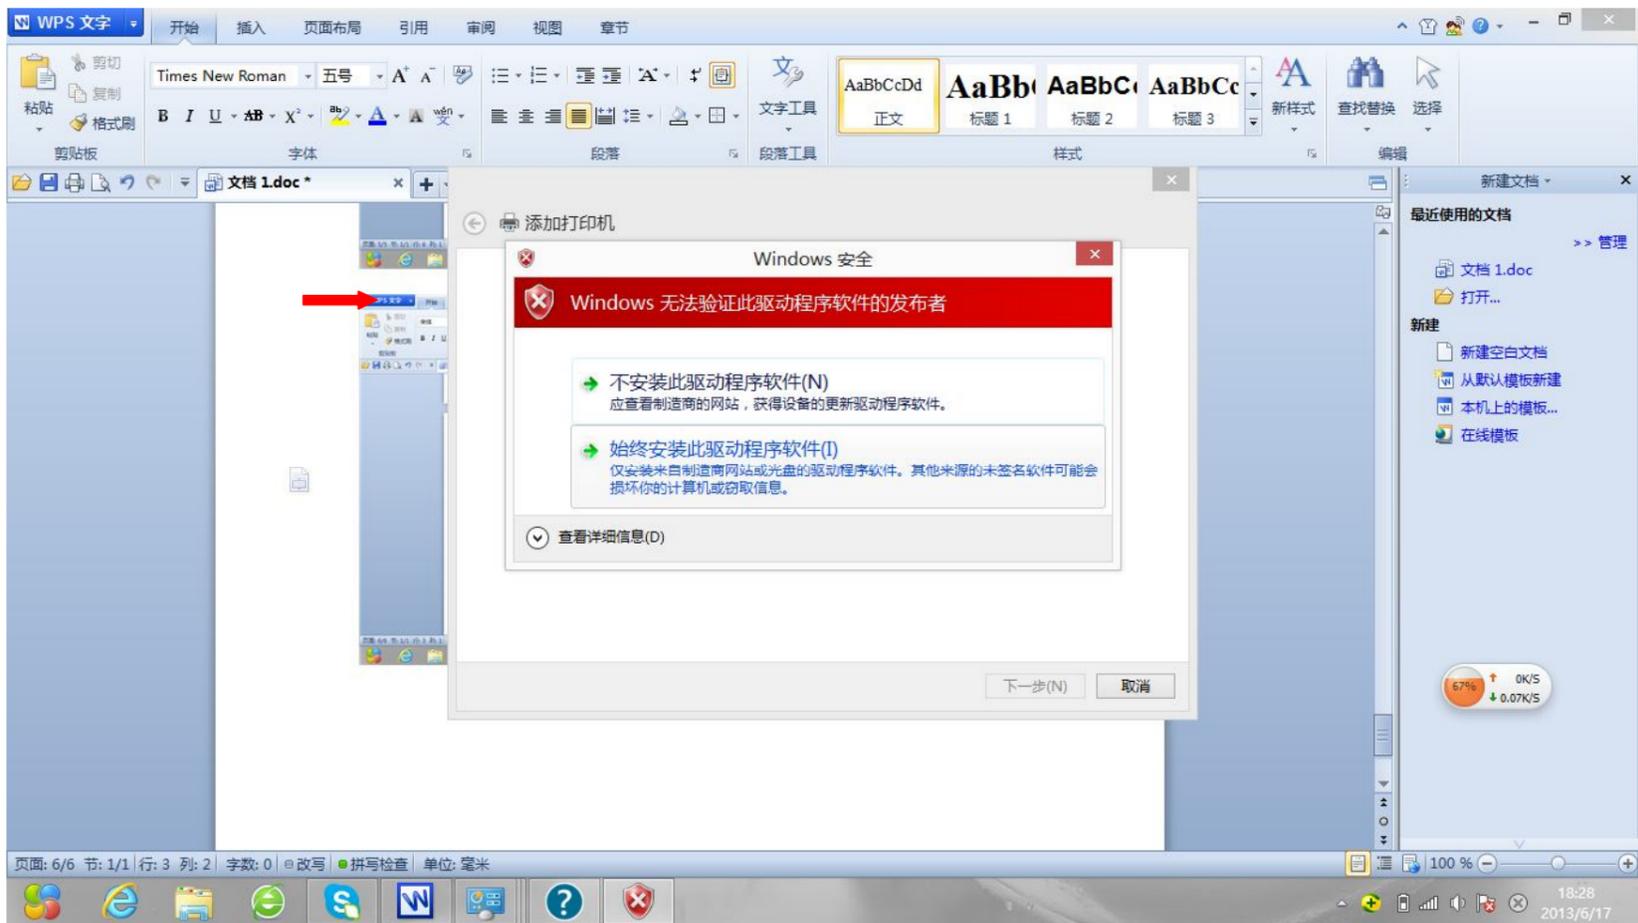

Choose the printer you want to install (“POS58 76 80” is printer’s specification, “C” is auto cutter). Click “Next”

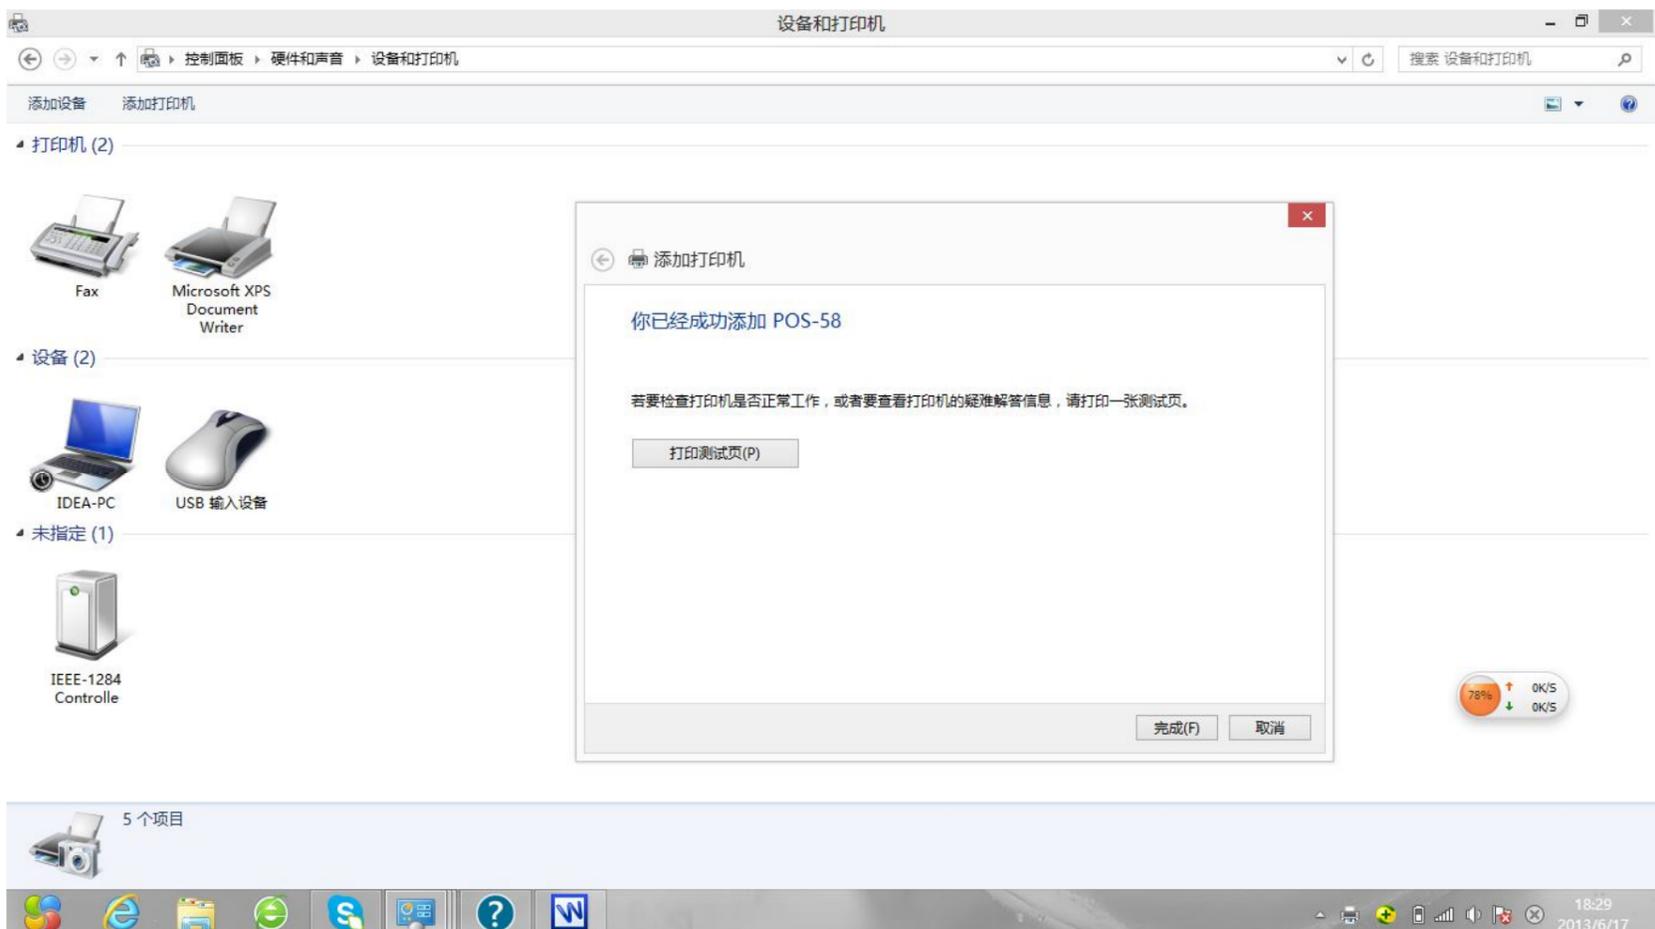

Change printer name, choose “Next”

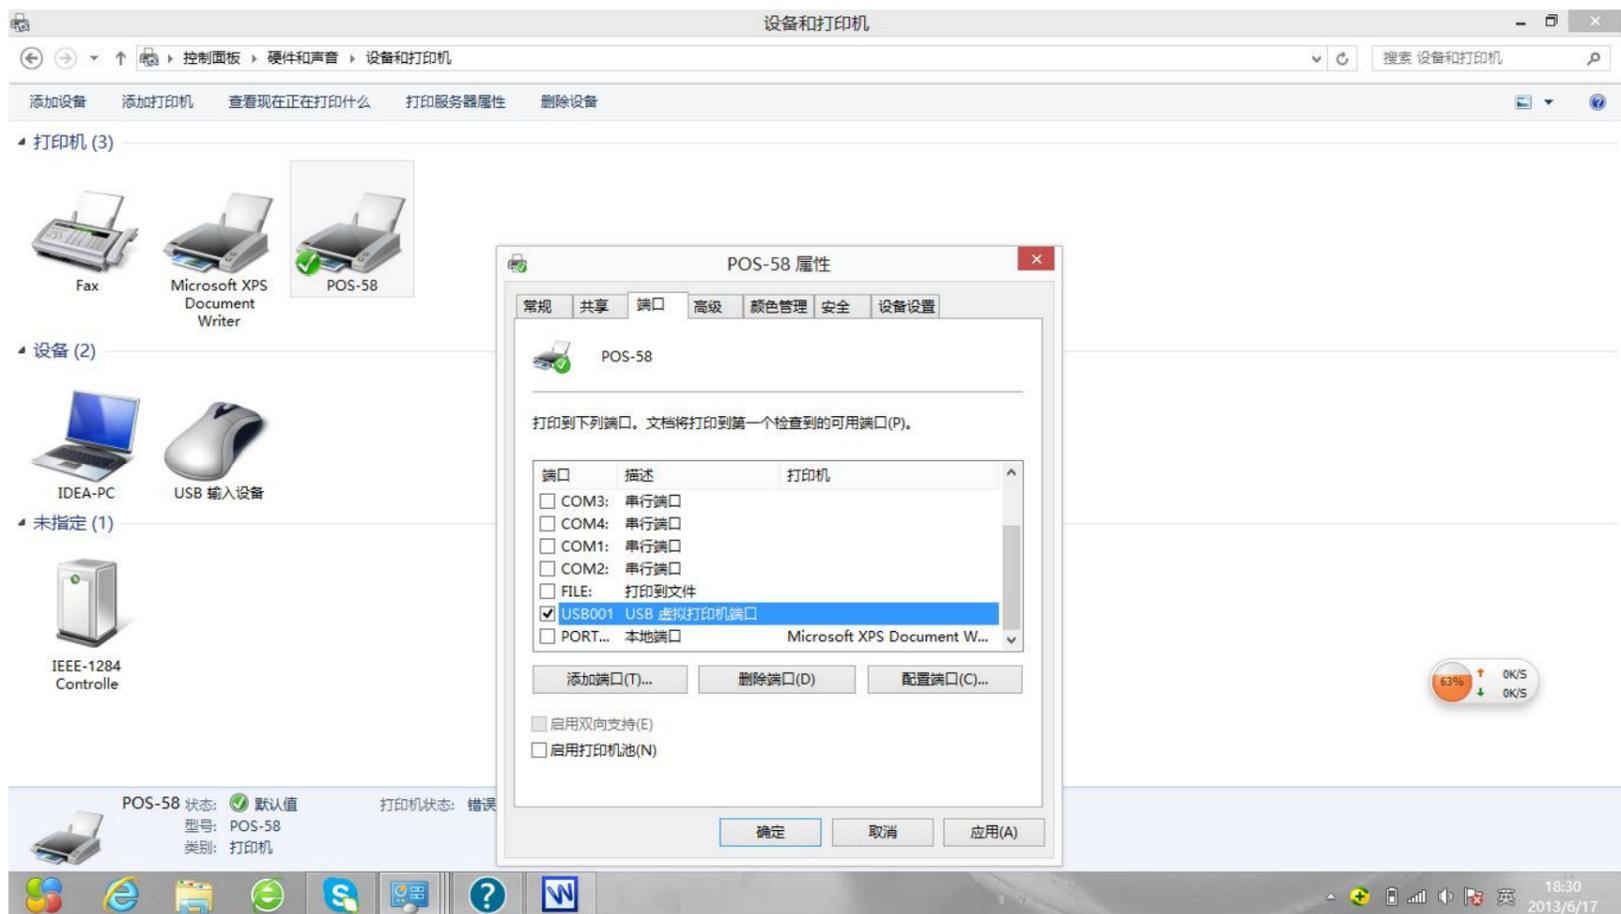

User Account Control, Choose “Yes”; Windows security: Choose “Install this driver software anyway”

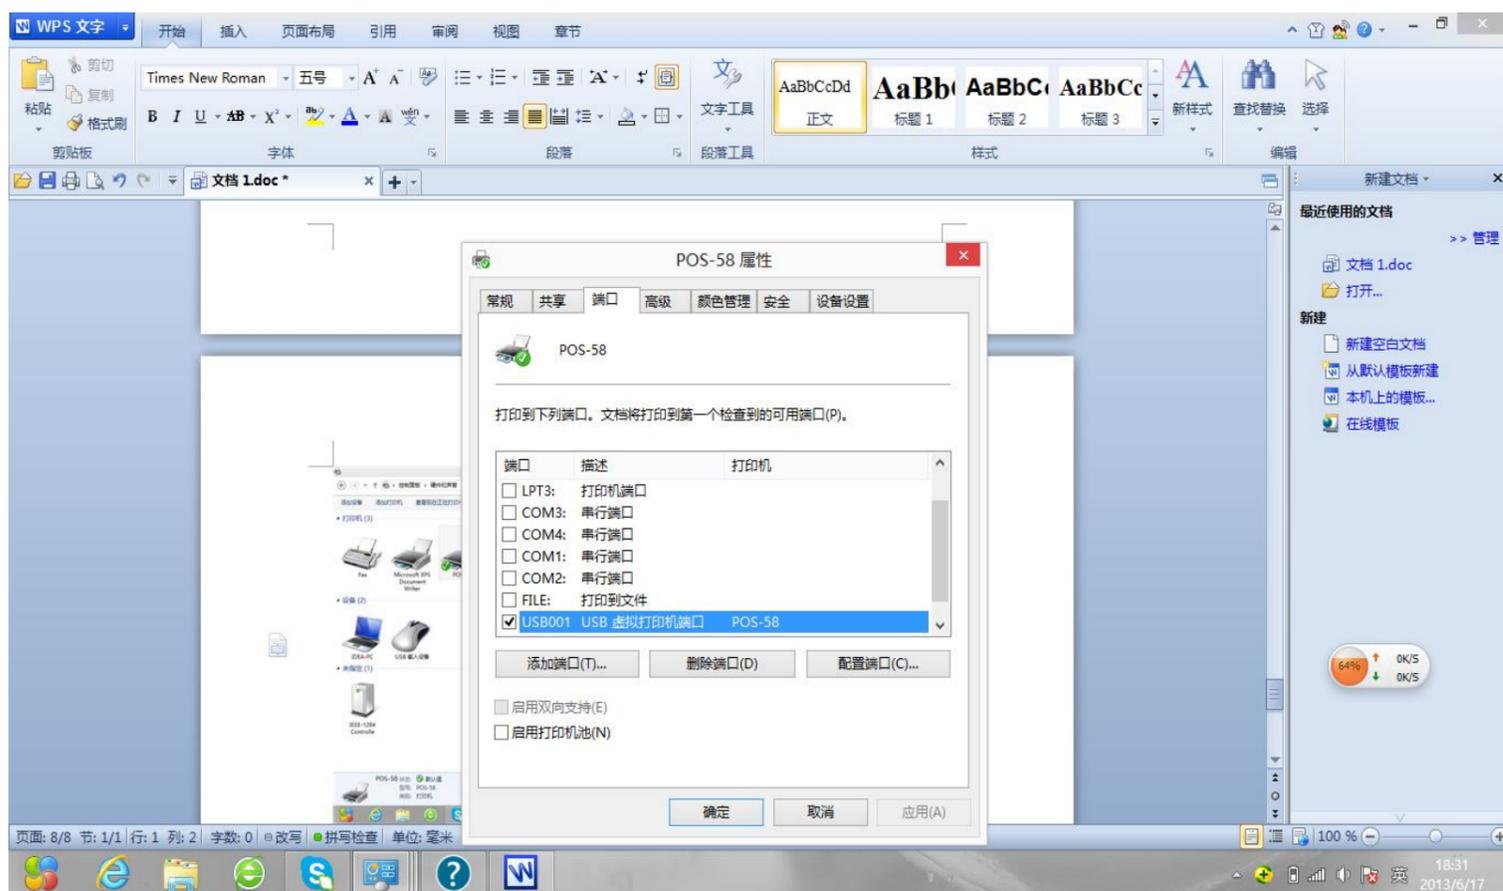

If it appears the following interface, means installation finish, choose “PRINT TEST PAGE”

Right-click printer, choose “Properties”, click “Port”, choose a right USB port or Parallel port, then click “Apply”

If it can print the test page, it means the printer driver installed correctly

Windows 打印机 测试页

你已将 POS-58
正确安装在
IDEA-PC 上。
