**Description:**

Mini Bluetooth Printer is a portable thermal printer that combines the USB communication interface, serial RS-232 and Bluetooth, the printer can be powered by car charger and rechargeable battery (depending on the models specified). These special characters make it successfully applicable to a wide range of tools, the printing of handheld data.

Application area:

Compared to the traditional thermal receipt printer, the Mini printer has a smaller body, more reliable capabilities, more stable printing and portable benefits. The Mini printer can work on many places, such as printing TAXI bills, printing administrative receipts, printing t pos receipts, printing restaurant ordering information, printing online payment information, etc. With the rapid popularity of smart-mobile, tablet and so on, Mini printer will be more widely used in the near future.

FAQ

1. MOQ policy

No MOQ limitation for standard products, but the unit price is different, the higher the better price.

For custom production, pos can be discussed directly with the MOQ with our sales representative.

2. Sample availability and & Policy

After customers have confirmed the specifications, we are very happy to provide samples for tests and qualifications.

All samples must be paid before shipment, the price of samples is higher than the mass order. When the mass order is made, pos we are returning the cost of the samples or sending you other piece products with the shipments.

You can buy samples directly from us using t / t, western union or paypal. And you can also buy it on our online store on aliexpress: [http://www.aliexpress.com/store/403448?Tracelog = minisite_CI](http://www.aliexpress.com/store/403448?Tracelog=minisite_CI).
