

Moeda das notas de dólar do contador do dinheiro de Digitas que conta com o detector da nota da falsificação

**(M / N:OCBC-2108)**

### **Especificação:**

|  |   |
|--|---|
| Função   |   |
| Início / parada automática                       | sim   |
| Contagem de lotes (número predefinido de contas) | sim   |
| Adicione cada número de contagem                 | sim   |
| Detecção UV                                      | sim   |
| Características de desempenho                    |   |
| Velocidade de contagem:                          | 900 pcs / min                                   |
| Capacidade de alimentação:                       | > 200pcs  |
| Capacidade de recepção:                          | > 300 unidades                                  |
| Tamanho das notas contáveis:                     | 50 mm x 110 mm ~ 90 mm x 175 mm                 |
| Espessura das notas contáveis:                   | 0,075-0,15 mm                                   |
| Faixa de contagem                                | 1-9999 unidades                                 |
| Faixa de lote                                    | 1-9999 unidades                                 |
| Contagem de exibição:                            | LED de três dígitos                             |
| Exibição em lote:                                | LED de quatro dígitos                           |
| Características físicas                          |   |
| Fonte de energia:                                | AC220V ± 10% 50Hz AC110V ± 10% 60Hz             |
| Consumo de energia:                              | ≤80W  |
| Dimensões:                                       | 300 mm x 238 x 163 mm                           |
| Peso   | GW. 5,5 kgs                                     |
| Embalagem  | 2 PCes por caixa: 350mm x 300mm x 435mm 13.5kgs |

Bill Counter

OCBC-2108

Product Picture

Features:

**Reliable with good price**

**Automatic detecting with UV(ultraviolet) and MG(magnetic) while counting;**

**Automatic start and stop;**

**900pcs/min High counting speed;**

**Ultra wide adjustable currency entrance, adapt to currency from most countries;**

**Automatic half-note detection**

## Parameter

|                                      |   |
|--------------------------------------|---|
| Function                             |   |
| Automatic start/stop                 | Yes   |
| Batch counting (Preset No. of bills) | Yes   |
| Add up each counting numbers         | Yes   |
| UV detection                         | Yes   |
| Performance Characteristics          |   |
| Counting speed:                      | 900 ps/min  |
| Feeding capacity:                    | >200pcs   |
| Receiving capacity:                  | >300 pcs  |
| Size of countable notes:             | 50mm * 110 mm~90mm * 175 mm                       |
| Thickness of countable notes:        | 0.075-0.15mm                                      |
| Counting Range                       | 1-9999 pcs  |
| Batch Range                          | 1-9999 pcs  |
| Counting display:                    | Three digits LED                                  |
| Batch display:                       | Four digits LED                                   |
| Physical Characteristics             |   |
| Power source:                        | AC220V±1 0% 50Hz AC110V±1 0% 60Hz                 |
| Power consumption:                   | ≤80W  |
| Dimensions:                          | 300mm* 238*163 mm                                 |
| Weight                               | GW. 5.5KGS  |
| Packing                              | 2 pcs per Carton: 350mm * 300 mm * 435 mm 13.5kgs |

## Power plug for option

## Quality Assurance:

OCOM is dedicated to providing most cost-effective products and services with highest quality that will meet customers' satisfaction.

Since the establishment, OCOM has been sticking strictly to the standard and requirements of ISO9001: 2000 in the processes of research, design, manufacturing and services. OCOM's products have passed CE, FCC, TUV, RoHs and other certifications.

We make strictly IQC, IPQC and OQC inspection per industrial standard. All the products must pass 24-48 hours aging test before shipment. Some designated models can have as long as 24 months warranty.

## Test Equipments:
